Grant Title: Alternate Seating Options

Grant Description: Alternative seating options for student choice, flexibility, and focus.

Payroll Deduction?	Yes
Other Contributions?	No, I just use the payroll deduction.

Outside Funding: Yes

Explain Funding: Private Donation - \$20

Total Funding: 20

Amount Requested: 4735.77

Itemized List

Items 1: 42" round red tables (8 x 157.99)	Cost 1: 1263.92
Items 2: Learniture Structure Chair - Pack of 4 (4 x 386.96)	Cost 2: 1547.84
Items 3: Wobble Stools (16 x 86.57)	Cost 3: 1385.12
Items 4: The Surf Portable Lap Desk - Pack of 10	Cost 4: 149.99
Items 5: Birdrock Home Adjustable Floor Chair (2 x 96.96)	Cost 5: 193.92
Items 6: Storage Bench	Cost 6: 74.59
Items 7: Bookshelves (3 x 40.13)	Cost 7: 120.39

Total Cost: 4735.77

Enhanced Learning Objective:

This project will enhance student learning because I have many students who require alternative seating because of their IEP or simply to help with behaviors (ADHD, focus, etc.). Other seating options (compared to the traditional desk connected to a chair) allow students to choose options like sitting on the floor, using a wobble stool, or sitting in a traditional chair. Frankly, many of my students do not fit comfortably in my current desks. Also, bookshelves for displaying reading options.

Digital graphics, photography, and illustrations often do not get seen by many people. The main reason for this is that it doesn't get printed. It is created digitally and therefore only exists on screens until it is printed and put up on the wall. It's sad to see such empty walls when I have such talented art students who create beautiful work every week. It will enhance student learning by celebrating success and developing a sharing community and learning culture.

Items 7: Red Filament - 3 Total	Cost 7: 63

Total Cost: 1726.91

Enhanced Learning Objective:

Students learn best through hands-on learning experiences, rather than just being told about science. Acquiring this 3D printer would enable my students to engage in engineering and hands-on activities, thereby preparing them for future careers. The printer's speed will let me produce student-made projects in minutes, not hours, facilitating daily investigations and testing. This approach will cater to visual learners and those who don't thrive in lecture and paper-based learning.

3rd grade CKLA Lessons at the end of the year ask the kids to record themselves reading a story. These would allow them to do this and I would like to do this more frequently too when the kids have afternoon read to self time. It would keep them accountable to read because they would have to turn it in. I have an ELL student that could use headphones with a mic for the software she uses. Carpet Squares-tight room- to have flexible seating for reading listening time, ink for classroom printer.
